

Ted Dunlap for Montana governor
OPERATION POLITICALLY HOMELESS

Over half our prison population is the failed 50-year-old war on non-pharma drug users

World Trade Center Bldg 7 collapsed 9/11, struck by no plane, justified a 15-year war, by parties still in charge

Remember when **Big Sky Country** meant **BLUE SKIES**?

Let them know you do not approve.

Ted Dunlap, Libertarian for Montana Governor

*All of your liberties
 All of the time*

If men cannot be trusted with their own affairs, then who among us can be entrusted to control the rest?

R - D - R - D... liberty continues to decline, power centralizes, taxes increase, economy collapses, truth is hard to come by.

Are you planning to vote for more of the same to get a different result?

The Internet is the most powerful information tool man ever had.
 Research there.
