

Become a HAM radio operator

Saturdays 10:00-noon

Darby Library meeting room

March 16th through May 18th

Handy in many situations, radio communications can be life saving when phones and Internet are down or out of reach

Ham radios start where walkie-talkies leave off, with licensed radio operators communicating around the corner and around the world.

ARRL License Manual costs \$30 available from instructor without postage It includes chapters on every aspect of the licensing exam and numerous practice tests

Darby Saturday study sessions are FREE
YOU can be an amateur radio operator
No electronics background required
This class has 100% success rate
